

Building Safe Campfires

- Clear campfire site down to bare soil.
- Circle the pit with rocks.
- Build campfires away from overhanging branches, steep slopes, dry grass, and leaves.
- Keep a bucket of water and a shovel nearby.
- Never leave a campfire unattended.
- When putting out a campfire, drown the fire, stir it, and drown it again.
- Always have an adult to supervise.
- Be careful with gas lanterns, barbeques, gas stoves, and anything that can be a source of ignition for a wildfire.

Off-road Safety

Vehicle

- Never park on or drive through dry grass.
- Grease trailer wheels, check tires, and ensure safety chains are not touching the ground.
- Internal combustion engines on off-road vehicles require a spark arrester.
- Check and clean the spark arrester.
- Carry a shovel and fire extinguisher in your vehicle or OHV/ATV.

Equipment

- Sparks from chainsaws, welding torches, and other equipment can cause wild fires.
- Please check local restrictions before using such equipment.

Fireworks Safety

- The use of fireworks is strictly prohibited on ALL Federal and State public lands.

Here are some safety tips for the use of fireworks on PRIVATE LAND when authorized.

- Always read directions.
- Always have adult supervision.
- Never use fireworks near dry grass or other flammable materials.
- Have a bucket of water and a hose nearby.
- Never attempt to re-light or "fix" fireworks.
- Fireworks are not toys.
- Use only Utah State Fire Marshal approved fireworks.
